

**MILK & GO**

For robot milkers

# TECHNICO

**MECHANICAL ENGINEERING AND DESIGN**

## EC declaration of conformity

Manufacturer : Technico Mechanical Engineering B.V.  
Address : Kerkstraat 34  
4265 JE Genderen ( the Netherlands )

Description and identification of the system:

Generic name : Milk & Go 3.0  
Function : Stimulating cows in leaving the milking robot directly after milking in order to prevent manuring of the milking robots  
Type number : 2020-10

### AGREEMENT

The manufacturer declares that the above system fulfils all the applicable definitions of:  
Low voltage directive 2006/95/EC  
EMC directive 2004/108/EC according to the modular approach

Consulted are:

NEN 5237:1995, Safety provisions for electric fault installations.  
NEN-EN-IEC 60335-2-76 Safety of household and similar electrical appliances  
Part 2-76: Special requirements for voltage providers for electric fault installations.

Drawn up at Genderen, 11th of November 2020
